PROFILE

iOS Developer with several years of professional experience in designing, developing, maintaining, and improving mobile applications. Experienced in delivering reliable, scalable, and user-focused iOS, strong problem-solving skills with the ability to work effectively both independently and within cross-functional teams. Committed to learning, adopting new technologies, and contributing technical expertise to build high-quality mobile products.

EDUCATION

POLITEKNIK ELEKTRONIKA NEGERI SURABAYA (PENS)

D3 Informatics Engineering 2020 - 2023

- GPA : 3.53
- Relevant coursework: Logic and Algorithms, Data Structures, Web Design and Programming, Databases, Object-Oriented Programming, GIS, and Artificial Intelligence

SMAN 2 SIDOARJO

2018 - 2020

- Accelerated program, completed in 2 years

WORK & INTERNSHIP EXPERIENCE

PT PARAMADAKSA TEKNOLOGI NUSANTARA – Tangerang

iOS Developer Januari 2024 – Present

- Develop and maintain native iOS applications using Swift, SwiftUI, and UIKit
- Build reusable and responsive UI following Apple's Human Interface Guidelines
- Implement application architecture using MVVM to improve code maintainability, scalability, and separation of concerns
- Integrate RESTful APIs and handle JSON data using Codable and URLSession
- Manage asynchronous operations and application state using Swift Concurrency (async/await) and Combine
- Implement local data persistence using Core Data, UserDefaults, and Keychain
- Work with navigation, deep link, push notifications, and application lifecycle management
- Diagnose and resolve bugs, crashes, memory issues, and performance bottlenecks using Xcode debugging and Instruments
- Write clean, reusable, and maintainable Swift code following iOS development best practice
- Collaborate with backend developers, UI/UX designers, QA engineers, and product teams throughout the development lifecycle
- Manage source code and team collaboration using Git and branching workflows
- Support application deployment and updates through TestFlight and App Store Connect

PT ELECOMP INDONESIA GROUP – Malang

Mobile and Web Developer Juli 2022 – Januari 2023

- Developed and maintained web and mobile applications based on company requirements
- Collaborated with team members to deliver company projects on schedule
- Served as a team leader for selected development projects
- Maintained and improved existing applications
- Identified and resolved bugs, errors, and application issues
- Mentored and supported other interns during development tasks
- Communicated directly with clients to understand requirements and provide suitable solutions

TECHNICAL & PERSONAL SKILLS

Technical Skills

- Swift, SwiftUI, UIKit
- MVVM, MVC, Clean Architecture
- RESTful API, URLSession, Codable, JSON
- Swift Concurrency, async/await, Combine
- Core Data, UserDefaults, Keychain
- Auto Layout, reusable components, responsive layouts, Apple Human Interface Guidelines
- XCTest, Unit Testing, UI Testing
- Xcode, Git, GitHub, Bitbucket
- TestFlight, App Store Connect
- Flutter, React js, Node.js, Express.js
- MySQL, PostgreSQL, MongoDB

Personal Skills

- Problem-solving and analytical skills
- Able to work independently and collaboratively in development teams
- Effective communication with developers, designers, QA, and product teams
- Attention to code quality, maintainability, and application performance
- Adaptable and quick to learn new technologies and frameworks
- Time management and task prioritization
- Experience supporting and mentoring team members
- Comfortable participating in code reviews and technical discussions
